BUYERS/SELLERS CONTRACT

For the sum of $_____.___ (written out _____), Dantero Kennels/Kadi Thingvall (hereinafter referred to as Seller), agrees to sell to _____ of _____ (hereinafter referred to as Buyer), one puppy described below (hereinafter referred to as Dog).
Purchase price does not include cost of transportation, health certificate, or equipment used for transportation (for example a crate).

Dog

Breed: _____ Sex: _____ Litter ID: _____

Whelped: _____ Color/Markings: _____

Sire: _____ Dam: _____

Sire: REG. #_____ Dam: REG. #_____

Dog: REG. #_____ Registry: AKC UKC BRN Unregistered

Registered name of puppy:_____ du Dantero

This registered name will appear on all registration papers (not limited to AKC and UKC, but including any other registries Dog is registered with) and will not be changed in any way by Buyer. Buyer can choose any "call name" for Dog they wish. The registered name must begin with the litter id of the litter Dog was born in, and end with "du Dantero"

Health Guarantee

Buyer shall have four (4) days from the date Buyer takes possession of Dog to have Dog examined by a licensed veterinarian. If during this examination the Dog is found to have a life-threatening illness or a congenital health condition that materially impairs Dog's health, and the condition was present at the time of sale, and the condition was not caused by Buyer's actions or negligence, Buyer may return Dog to Seller for a refund of $_____.___. Written documentation from a licensed veterinarian is required. All registration papers must be returned with Dog, signed to transfer ownership back to Seller, before any refund is issued.

If Dog dies within four (4) days of purchase due to an illness contracted while in Seller's possession, Buyer may submit written proof from a licensed veterinarian and receive the above refund. Seller is not responsible for any illness, injury, or death caused by Buyer or any outside party, whether accidental or otherwise. Any refund in such cases is at Seller's discretion. All veterinary and shipping costs are the responsibility of Buyer.

Seller guarantees that, to the best of Seller's knowledge, Dog is free of life-threatening health problems at the time of sale. If, prior to Dog's fourth (4th) birthday, Dog is diagnosed with a genetic* health defect that significantly impairs Dog's quality of life, Buyer may return Dog to Seller, with written proof from a licensed veterinarian or recognized testing organization (OFA, CERF, etc.), for a replacement puppy. Buyer is responsible for all transportation costs for both Dog and the replacement puppy. The replacement puppy will be selected by Seller from Seller's next available litter and will be of equal or higher quality than the original puppy. All terms and restrictions of the original sale apply to the replacement puppy.

If Buyer chooses to keep Dog, a refund of one-half (1/2) of the purchase price will be issued after Seller receives acceptable proof of spay/neuter. Any option other than returning Dog to Seller—including selling, gifting, or euthanizing Dog-constitutes Buyer's decision to keep Dog.

Dogs sold as potential show or working quality are not guaranteed to earn titles or achieve specific performance outcomes, as Seller has no control over training, handling, or competition. Buyer Initials: _____

Registration / Grading

Dog has been graded and sold as potential pet / show / working quality (circle one). Grading reflects Seller's assessment at the time of sale and is not a guarantee of future performance, structure, or working ability.

If Dog is graded as pet quality (or sold specifically as a pet), Buyer agrees that Dog will be registered on an AKC Limited Registration and spayed/neutered between 18 and 24 months of age. If Dog is spayed/neutered prior to 18 months of age, all health guarantees in this contract are void, as early sterilization can negatively impact orthopedic development.

If Dog is a female sold as working and/or show quality, Dog will be registered on an AKC Limited Registration. Limited Registration does not restrict training or titling, only the registration of offspring. Limited Registration may be changed to Full Registration after Dog has received a passing OFA, PennHip, or similar organization's rating for hips and elbows, passed a CERF exam, and achieved a qualifying working title. Titles that qualify for a change in registration include PSA1, FRI, MRI, IPG1, or a level 1 herding title (HSA, HSB, HRDI, HTDI, RLFI, or similar). Other titles such as obedience, agility, or conformation may be accepted at Seller's discretion. All costs associated with training, titling, and certification are the responsibility of Buyer. Buyer Initials: _____

Advertising

Buyer agrees to provide Seller with clear photographs suitable for advertising, along with photocopies of all awards and critiques, including the judge's name(s) and the sponsoring club. Buyer agrees that Seller may use these photographs and award details in future advertising.

Repossession / First Refusal

Buyer agrees that Seller may repossess Dog upon evidence of neglect, abuse, or any material violation of this contract, at no expense to Seller. Buyer agrees to immediately surrender Dog upon request. All registration papers will be signed over to Seller at that time.

Buyer certifies that Dog is being purchased as a personal dog and not as a broker or agent for resale. If at any time during Dog's life Buyer decides to sell, place, or give Dog away, Buyer agrees to give Seller first right of refusal to purchase Dog back for the original purchase price. Seller will be responsible for reasonable transportation costs if Seller elects to exercise this right. Buyer agrees not to transfer ownership until Seller has confirmed in writing whether they will exercise this right. Buyer Initials: _____

Shipping

If Dog is to be transported to Buyer by air or by ground, Buyer pays all shipping-related costs (including but not limited to airline fees, ground transport fees, crate, health certificate, and any required handling or third-party transport fees).

Air Transport

If Dog is to be air shipped to Buyer, Buyer is responsible for picking up Dog at the following destination:

- Preferred Airport: _____
- Alternate Airport: _____

All puppies being shipped from the same litter will be shipped on the same date selected by Seller. Buyer is responsible for making themselves available to pick up Dog at the airport on that date. If Buyer requires Dog to be shipped on a different date, this may be arranged for an additional fee, as Seller may need to hire a third party to transport Dog to the airport. Seller retains final discretion regarding the specific flight Dog will be booked on, in order to coordinate multiple shipments and manage airline cargo drop-off schedules. Buyer Initials: _____

Ground Transport

If Buyer requests ground transportation instead of air shipping, Buyer is responsible for all ground transport-related costs, including but not limited to transport service fees, mileage charges, health certificate (if required), and any third-party handling fees. Seller will coordinate the transport date, and all puppies from the same litter being transported by ground will be scheduled for transport on the same date selected by Seller. If Buyer requires Dog to be transported on a different date, this may be arranged for an additional fee. Buyer Initials: _____

Payment & Possession

Deposit Amount Paid: $_____ Date Deposit Paid: ___/___/___

Final Payment Amount: $_____ Date Final Payment Received: ___/___/___

Date possession of Dog taken by Buyer: ___/___/___

Signatures

_____ ___/___/___ BUYER _____ ___/___/___ SELLER

Notes

List any vaccinations the Dog has received, any illnesses or conditions known to both Buyer and Seller, and the current condition of ears, tail, dewclaws, or other pertinent information (including any agreed-upon changes to this contract). These notes are for documentation of the Dog's condition at the time of sale and are not guarantees of future development, as puppies naturally change as they mature. Any changes to this contract must be written in this section and initialed by both Buyer and Seller. If no notes or changes are applicable, this section must be crossed out in its entirety at the time of signing to prevent additions after the fact.

Tattoo: _____ Position: _____

Microchip:_____

** Genetic diseases that affect a dog's quality of life are defined as conditions that significantly impair normal function or comfort. For example, some inherited eye conditions in various breeds are graded from mild to severe; mild grades may not affect vision or quality of life, while higher grades can cause progressive impairment. Only conditions that materially impact the dog's health or daily function are considered to affect quality of life.*

This written contract and the information recorded above constitute the full agreement between Buyer and Seller and supersede any prior verbal statements.
